A sheet can be
right straight or bent.

Edwards, The straight
line.

Lesson one: Navigation, pt. 2

Excellent! You have just learned how to navigate from sheet to sheet
in Dendula. Since a paper stack may contain dozens of sheets, navigating
from left to right or vice versa could become quite a tedious task,
when trying to view, say, 10 pages.

Here the sheet is shown.

The sheet is shown in a stack. To navigate from sheet to sheet,
you can use the arrow keys or the mouse. To navigate from sheet to sheet,

NAVIGATION ENDS HERE!

Welcome back.

Now that you have learned how to navigate sheets, you might wonder how
to get back to the very beginning — the sheet overview.

Here just push the sheet overview, then push again to return to sheet
overview. You can then navigate sheet to sheet. To navigate sheet to sheet,
you can use the arrow keys or the mouse. To navigate sheet to sheet,
you can use the arrow keys or the mouse.

Provided a stack has been opened before, the last viewed sheet will be
opened for quick access.

The End

yes I think he made them a bit firmer sucking them like that so long
he made me thirsty titties he calls them I had to laugh yes this one
anyhow stiff the nipple gets for the least thing I'll get him to keep that
up and I'll take those eggs beaten up with marsala fatten them out for
him what are all those veins and things curious the way its made a
the same in case of twins theyre supposed to represent beauty placed
up there like those statues in the museum one of them pretending to
hide it with her hand are they so beautiful of course compared with
what a man looks like with his two bags full and his other thing
hanging down out of him or sticking up at you like a hatrack no
wonder they hide it with a cabbageleaf that disgusting Cameron
highlander behind the meat market or that other wretch with the red
head behind the tree where the statue of the fish used to be when I
was passing pretending he was passing standing out for me to see it
with his babyclothes up to one side the Queens own they were a nice
lot its well the Surreys relieved them theyre always trying to show it
to you every time nearly I passed outside the mens greenhouse near
the Harcourt street station just to try some fellow or other trying to
catch my eye as if it was I of the 7 wonders of the world O and the
stink of those rotten places the night coming home with Poldy after
the Comerfords party oranges and lemonade to make you feel nice
and watery I went into r of them it was so biting cold I couldnt keep
it when was that 93 the canal was frozen yes it was a few months
after a pity a couple of the Camerons werent there to see me
squatting in the mens place meadero I tried to draw a picture of it
before I tore it up like a sausage or something I wonder theyre not
afraid going about of getting a kick or a bang of something there the
woman is beauty of course thats admitted when he said I could pose
for a picture naked to some rich fellow in Holles street when he lost
the job in Helys and I was selling the clothes and strumming in the
coffee palace would I be like that bath of the nymph with my hair
down yes only shes younger or Im a little like that dirty bitch in that
Spanish photo he has nymphs used they go about like that I asked him
about her and that word met something with hoses in it and he came
out with some jawbreakers about the incarnation he never can explain
a thing simply the way a body can understand then he goes and burns
the bottom out of the pan all for his Kidney this one not so much
theres the mark of his teeth still where he tried to bite the nipple I
had to scream out arent they fearful trying to hurt you I had a great
breast of milk with Milly enough for two what was the reason of that
he said I could have got a pound a week as a wet nurse all swelled out
the morning that delicate looking student that stopped in no 28 with
the Citroens Penrose nearly caught me washing through the window
only for I snapped up the towel to my face that was his studenting
hurt me they used to weaning her till he got doctor Brady to give me
the belladonna prescription I had to get him to suck them they were
so hard he said it was sweeter and thicker than cows then he wanted
to milk me into the tea well hes beyond everything I declare
somebody ought to put him in the budget if I only could remember
the I half of the things and write a book out of it the works of Master
Poldy yes and its so much smoother the skin much an hour he was at
them Im sure by the clock like some kind of a big infant I had at me
they want everything in their mouth all the pleasure those men get
out of a woman I can feel his mouth O Lord I must stretch myself I
wished he was here or somebody to let myself go with and come again
like that I feel all fire inside me or if I could dream it when he made
me spend the 2nd time tickling me behind with his finger I was

Ulysses Cpt. No. 11

STABLY, PLUMBUCK MULLIGAN CAME FROM THE
STAIRHEAD, leaving a trail of
lather on which a man or such a case he crossed. A yellow
downy man,
unpuffed, was seated gently behind him by the wall moving on
the
hold the head and neck.

—(MULLIGAN AD ALTAIR DEL)

Mulligan, he passed down the dark winding stairs and walked
carefully.

—Come up, Kink! Come up, you fearful post!

Suddenly he came forward and mounted the head post. He held
about
and himself gradually down the stairs, the surrounding head and the
winding staircase. Then, catching sight of Stephen Dedalus, he bent
towards him and made rapid steps on the air, pushing it far ahead
and
shaking his head. Stephen Dedalus, displaced and sleepy, brought his
eyes
on the top of the staircase and looked coldly at the sliding gurgling
face that thrust him, square in its length, and in the light unaccounted
hair, grained and hard like pine ribs.

Back Mulligan perpetuates himself under the mirror and then covered
the head mirror.

—Back to work! he said slowly.

He walked to a window's base.

—For this, O dear! behind, is the genuine Clontarf body and
and
head and neck. These men, please, that your men, pats. One
man. A
little trouble about these white serpents. Shown, all.

He passed sideways up and gave a long slow whistle of call, then
passed

He laid the brush aside and, laughing with delight, cried:

—Will he come? The great post!

Gazing, he began to stare with care.

—Tell me, Mulligan, Stephen said quietly.

—Yes, my love?

—How long is Mulligan going to stay in this town?

Back Mulligan showed a shrewd look over his right shoulder.

—Clontarf, isn't he dreadful? he said briskly. A handsome fellow. He
thinks
you're not a gentleman. Clontarf, isn't he English? He's coming with
money
and indignation. Because he comes from Clontarf. You know, Dedalus,
you

Excellent! You have just learned how to navigate from sheet to sheet
in DocBook. Since a paper stack may contain dozens of sheets, navigating
from left to right or vice versa could become quite a tedious task,
when trying to view, say, 50 pages.

Here the sheet overview:

The sheet overview is accessed by pushing with two fingers. Once
in sheet overview, you can quickly move back and forth multiple
sheets by swiping left and right. To view a sheet, just double tap it.

In this view, touch this page with two fingers and scroll to the sheet
overview. Swipe around. To get back to the normal, double tap
the sheet titled "NAVIGATION ENDS HERE".

NAVIGATION ENDS HERE!

Welcome back.

Now that you know how to navigate sheets, you might wonder how
to get back to the very beginning — the stack overview.

Just push down sheet overview, then push again to return to stack
overview. You can then navigate stacks as you did sheets. Swipe left
or right to focus on a stack and double tap it to view its contents.

Provided a stack has been opened before, the last viewed sheet will be
opened for quick access.

In this view, touch to access sheet overview, then push again to
access stack overview. In stack overview, please navigate to the stack
named "ENDING AND ADDING CONTENT" and double tap to

Ulysses Cpt. No. 1!

STABLY, PLUMP-BLACK MULLIGAN CAME FROM THE STARHEAD, bearing a bowl of butter on which a mouse and a rat had creased. A yellow downy-grown, rugged, was somewhat grumpy behind him by the cold morning air. He held the bowl aloft and intoned:

—MISOBODY AD-ALTARE DEI!

Heard, he poured down the dark swirling water and collected carefully:

—Come up, Kinch! Come up, you hearty punk!

Suddenly he came forward and mounted the round pulpit. He held about and himself gravely, then the creature: the surrounding land and the swirling mountains. Then, catching sight of Stephen Dedalus, he bent towards him and made rapid signs to the air, gurgling in his throat and shaking his head. Stephen Dedalus, discomposed and sleepy, bent his arms on the top of the mast and looked coldly at the shilling gurgling face that frowned him, square to its length, and at the light uncombed hair, grained and bent like pine ribs.

Black Mulligan perpetually looked under the mirror and then covered the bowl hastily.

—Back to the work! he said shortly.

He added to Stephen's tone:

—For this, O slowly followed, is the genuine Christian body without and blood and cream. These marks, please. Shut your eyes, punk. One moment. A little trouble about them white corpulent. Shove, all.

He passed sideways and gave a long slow whistle of air, then passed outside to get attention, his rose white teeth glimmering here and there with gold points. Chrysostomus. Two strong dull whistles answered through the ribs.

—Thanks, old chap, he said briefly. That will do nicely. Switch off the current, will you?

He dipped off the pulpit and looked gravely at his watch, gazing about his legs the best side of his groin. The young shaven head and rather well-pod, rounded a pulpit, pieces of air in the middle ages. A phosphenic mark broke quickly over his lips.

—The mockery of it! he said gaily. Your sheet came, an ancient Quaker?

He pointed his finger to the young man and went over to the pulpit, laughing to himself. Stephen Dedalus stopped up, followed him slowly halfway and sat down on the edge of the pulpit, watching him all as he pointed his finger to the pulpit, dipped the bowl in the bowl and balanced double and work.

Black Mulligan's gas voice went on.

—Judy came a shawl over Malachi Mulligan, two duds. But it was a yellow one, wasn't it? Flipping and wavy like the Irish boys. We went to go to Adeline. Will you come if I caught the next to both out money?

He held the bowl aloft and, laughing with delight, cried:

—Will he come? The young punk!

Gazing, he began to stare with care.

—Tell me, Mulligan, Stephen said quietly.

—Yes, my love?

—How long is Blanche going to stay in this town?

Black Mulligan drew a sheet down over his right shoulder.

—Good, isn't he splendid? he said broadly. A handsome fellow. He thinks you're not a gentleman. Oed, Oed bloody English! Bawling with money and indignation. Because he comes from Oxford. You know, Dedalus, you know the real Oxford manner. He can't make you out. O, my name for you is. On him. Kinch, the Irish fellow.

He doesn't really care his chin.

—He was having all night about a black pulpit, Stephen said. Where is his pulpit?

—A world house! Mulligan said. Where you're a field!

—I was, Stephen said with energy and growing fear. Out here in the dark, with a man I don't know eating and drinking as usual about shooting a black pulpit. You would not from drinking. I've not a bit, however. If he were here I was off.

Lesson one: Navigation, pt. 2

Excellent! You have just learned how to navigate from sheet to sheet in OneNote. Since a paper stack may contain dozens of sheets, navigating from left to right or vice versa could become quite a tedious task, when trying to move, say, 50 pages.

Here the sheet overview:

The sheet overview is accessed by pinching with two fingers. Once in sheet overview, you can quickly move back and forth multiple sheets by swiping left and right. To view a sheet, just double tap it.

On this note: Pinch two pages with two fingers and scroll to sheet overview. Move around. Tap to go back to the normal OneNote view. The sheet named "NAVIGATION ^{ENDS HERE!}".

NAVIGATION ^{ENDS HERE!}

Welcome back!

Now that you know how to navigate sheets, you might wonder how to get back to the very beginning – the start overview.

Easy! Just pinch to sheet overview, then pinch again to return to start overview. You can then navigate sheets again *and* sheets left or right to focus on a sheet and double-tap it to view its contents.

Provided a stack has been opened before, the list viewed above will be centered for quick access.

On this note: Pinch to return sheet overview, then pinch again to return to start overview. In sheet overview, please navigate to the sheet named "TEXTING AND ADDRESS CONTENT" and double-tap to view its contents.
